

SHORT NEWS

Dear Saints of God,

With a full and grateful heart we write this letter. The 2013 year has come and gone with so many changes and challenges for our family. Without a doubt we feel more blessed this year than we ever have. God has taken care of our family as we transitioned our lives to the land of our calling, the Philippine Islands.

Throughout the year we have witnessed the hand of God upon our family. With the culture differences and health standards we face here we are thankful that we have not encountered any major sickness. God has protected us while we learned to drive in this country that has very little traffic laws to encourage safe traveling. We feel a special peace in our home with which God blessed us. There have been no incidents and we feel safe. Thank you Jesus!

The Revival fires are burning in the Philippines, and we are excited to be a part of it. To date we have seen fourteen souls receive the Holy Ghost for the first time and three backsliders have been renewed. One deaf and mute man was among those who have been gloriously filled with the Holy Ghost. We serve a miracle working God!

Thank you so very much for your prayers and financial support as we strive to fulfill the call of God in our lives. We are humbled by your generosity and love. We pray that you would be blessed one hundred fold.

With full hearts,

Sis. Sandra Short

To the United States and Back

Due to some minor complications with our Philippine Visa we had to exit the country before a year had passed. We took this opportunity to visit the States and see friends and family for the holidays. We were also able to visit a few churches, and we are thankful for God's blessings on those services. While we had a great time, we were ready to come "home" by the end of the trip. We thank God for bringing us back safely.

As a "welcome back," the first service we attended was packed out with visitors hungry for God. We are excited about the growth in the Payatas church. We anxiously look forward to what God wants to do this year. Please continue to pray for Revival in the Philippines!

Carter, Avalynn, and cousin Brecklin having fun riding Brecklin's horse "Freedom."

Carter and Avalynn rushed to Pastor Howard during our first service home.
